A person is using the Wine Aerator Pro on a bottle of white wine. The aerator is a black device with a clear glass funnel on top. The person is holding the black handle and pressing it down into the bottle. The wine is being aerated, and a white foam is visible in the funnel. In the background, there are other people at a dinner table, and a glass of white wine is visible in the foreground.

airtender

The Wine Aerator Pro is the only wine aerator that combines two aeration techniques to instantly achieve maximum flavour and aroma directly in the bottle.

The only thing more impressive than the visual spectacle is the intense taste of wine it unlocks - all in less than 60 seconds.

WINE & COCKTAILS

airtender

With the Airtender Storage & Cuisine collection, you won't waste food, flavour and packaging.

Vacuum saving without using plastic containers. Marinate, ferment and infuse. Create culinary foams and much more.

Storage & Cuisine

airtender

PROMO 2024

Con la conservazione tradizionale, si crea un vuoto nel barattolo perché il contenuto caldo si raffredda. Tuttavia, dopo aver rotto il sigillo, i barattoli vengono ridotti a "semplici" contenitori ermetici. Quindi non c'è più il vuoto per prolungare la durata di conservazione.

La soluzione Airtender: migliorare i barattoli con chiusura a clip con coperchi sottovuoto. Non solo manterrà il cibo fresco più a lungo, ma accelererà anche la fermentazione e renderà più facile l'inscatolamento. Airtender l'ha fatto di nuovo.

Con la conservazione tradizionale, i barattoli creano un vuoto perché il contenuto caldo si raffredda.

Tuttavia, dopo aver rotto il sigillo, i barattoli vengono ridotti a "semplici" contenitori ermetici. Quindi non c'è più il vuoto per prolungare la durata di conservazione.

*La soluzione Airtender:
migliorare i barattoli con chiusura a clip con coperchi sottovuoto!*

Il coperchio sottovuoto sostituisce anche la guarnizione standard del barattolo. Si adatta sotto un tappo a clip chiuso e ti dà la possibilità di scegliere tra una conservazione ermetica o completamente sottovuoto.

Incluso un indicatore visivo del vuoto.
