TRUNK!

The TRUNK brand has been around since 2011 and is sold in a number of major retailers in several countries.

TRUNK sleeves and bags for Apple and PC devices are designed in Denmark. We combine function, form, aesthetics and high quality, which are very characteristic elements for Danish Design. It is easy to understand and easy to rely to without any unnecessary disturbing elements.

TRUNK is all about great design and ultimate protection! We like to keep our voices down with this simplistic design, which quietly does its job. For years.

Knud Erik Knudsen & Tina Vagtholm

TRUNK Founders
